

Oscillating Space Heater with Adjustable Thermostat

This compact space heater is designed for personal or small-area heating. It has an adjustable thermostat, multiple heat settings, and a safety overheat protection system.

Product Overview

Compact Comfort Heating

The HW-298 series oscillating space heater is engineered for efficient personal and small-area heating. Featuring wide-angle oscillation, it ensures even heat distribution throughout your space. With an adjustable thermostat and built-in safety mechanisms like overheat protection, this unit combines convenience with reliability for home or office environments.

Technical Specifications

Power Consumption	1500 W
Voltage	120 V AC
Frequency	60 Hz

Features

Key Features

- Wide-angle oscillation for even heat distribution
- Adjustable thermostat control
- Multiple heat settings
- Safety overheat protection system
- Integrated carry handle for portability

Suitable Applications	Home, Office, Dorm Rooms
