

OTR Bias Tire TB812 for On/Off-Road Use

This multi-use mobility tire is suitable for both on and off-road applications. The all-purpose tread design provides a balance of traction and even wear on multiple surfaces.

Product Overview

Versatile Mobility for Demanding Environments

The TB812 is a multi-use mobility tire engineered for seamless performance across both on and off-road applications. Its robust bias construction is specifically designed for heavy-duty machinery, offering exceptional resistance to punctures and cuts in challenging terrains like mud, sand, and rock. This tire provides a reliable solution for construction and mining operations where durability and traction are paramount.

Performance Features

TB812

Multi-use Mobility Tire for On / Off Road Applications

- All purpose tread design for a balance of traction and even wear
- Unique compound for enhanced performance on multiple surface
- Tough construction for robust support in all wheel positions

The TB812 features an all-purpose tread design and a unique compound for balanced performance and durability across multiple surfaces.

Key Performance Benefits

- All-purpose tread design for balanced traction and even wear
- Unique compound engineered for enhanced performance on multiple surfaces
- Tough construction providing robust support in all wheel positions
- Aggressive tread pattern for superior grip on rock and mud

Technical Specifications

Tire Type

Bias • OTR • Tubeless

Tire Size

23.5-25

Model Code

TB812

Applications

Recommended Equipment

Construction Equipment, Mining Vehicles, Industrial Machinery

Terrain Compatibility

On-Road, Off-Road, Mud, Sand, Rock
