

Outboard Drum Axle for Trailers

This outboard drum axle is designed for heavy-duty trailer applications. It features a drum brake system for reliable stopping power.

Product Overview

High-Capacity Outboard Drum Axles

These outboard drum axles are engineered for heavy-duty trailer applications, providing robust construction and reliable performance. Designed for commercial vehicles and semi-trailers, the series offers a wide range of load capacities and configurations to suit diverse industrial requirements. Each unit features a precision-engineered drum brake system to ensure consistent stopping power under demanding conditions.

Technical Specifications

Detailed Model Specifications

Model	Capacity (kg)	Beam Type	Track (mm)	Brake (mm)
K1101WY	11000	Æ127	1950	Æ311×190
FH1108WYc	11500	Æ127	1850	Æ420×180
FH1113WY	11500	Æ127	1850	Æ380×220
FH1206WF	12000	¡120	1920	Æ420×180
K1301WY	13800	Æ127	1840	Æ420×180
K1301WF	13800	¡150	1840	Æ420×180
FH1305WFb	13800	¡150	1840	Æ420×180
FH1501WF	15000	¡150	1850	Æ420×180
FH1601WY	16000	Æ127	1850	Æ420×220

Load Capacity Range

11000 kg

Minimum Capacity

16000 kg

Maximum Capacity

Available Beam Types

Æ12R(und), ¡120 (Square), ¡150 (Square)
