

Outdoor Balcony/Eave Antenna

This outdoor antenna features a space-saving tower design that promotes better wind flow and prevents snow covering. It is easy to install on balconies and attics, with weather-resistant housing that is waterproof, anti-rust, and UV protected.

Product Overview

Compact Outdoor Reception Solution

This outdoor balcony and eave antenna features a space-saving tower design engineered for optimal wind flow and snow resistance. It is housed in a durable, weather-resistant, and UV-protected enclosure, making it suitable for balcony, attic, and various outdoor environments. The unit includes a built-in wide-band amplifier to ensure high-performance reception of Full HD, digital TV, VHF, and UHF signals.
