

Outdoor CCTV Scanner with Pan and Tilt

This outdoor scanner is designed for CCTV applications, offering pan and tilt functionality. The weatherproof construction ensures reliable operation, making it suitable for harsh environments.

Product Overview

Robust Outdoor Surveillance Positioning

The HT-91MC is a professional-grade outdoor scanner engineered for CCTV applications requiring pan and tilt functionality. Its rugged, waterproof construction ensures reliable performance and durability in harsh environmental conditions. Designed for smooth, precise movement, this scanner offers accurate positioning and tracking for comprehensive surveillance coverage. It integrates seamlessly with a wide range of CCTV cameras and control systems.

Technical Specifications

Max Load Capacity	5 KGS
Input Voltage	DC 24V, AC 24V
Power Consumption	10 W
Frequency	50/60Hz
