

Outdoor Digital TV Antenna

This high-gain outdoor TV antenna is designed for optimal reception of digital television signals. Featuring a multi-element array, it enhances signal strength and reduces interference.

Product Overview

High-Performance Outdoor Digital Reception

This high-gain outdoor digital TV antenna is engineered to deliver superior signal clarity and stability for professional and residential installations. Featuring a multi-element array, the unit excels at boosting signal strength while actively minimizing interference in challenging environments. Built to endure, its weather-resistant construction ensures reliable reception of both VHF and UHF frequencies even under harsh atmospheric conditions.

Technical Specifications

Key Signal Features

- High-gain multi-element array
- Interference reduction technology
- Low signal loss architecture

Frequency Bands

VHF, UHF

Build & Durability

Build Quality

Weather-resistant • Durable Construction

Installation

Mounting Type

Robust integrated mounting system for secure outdoor installation
