

# Outdoor Digital TV Antenna

This high-gain outdoor TV antenna is designed for receiving digital terrestrial television signals. It features a multi-element array for enhanced signal reception across a wide frequency range and is constructed with durable, weather-resistant materials.

## Product Overview

### High-Performance Outdoor Reception

This outdoor digital TV antenna is engineered for reliable reception of terrestrial television signals across a broad frequency spectrum. Featuring a sophisticated multi-element array, it ensures enhanced signal clarity for both VHF and UHF bands. Designed with durable, weather-resistant materials, it offers long-term performance even in demanding outdoor conditions.

## Technical Specifications

### Build Quality

Weather-resistant • Durable

### Frequency Bands

VHF, UHF

## Installation

### Included Components

- Multi-element antenna array
- Mounting hardware
