

Outdoor Digital TV Antenna

This outdoor TV antenna is designed for receiving over-the-air broadcast signals. It combines Yagi-Uda and loop elements for VHF and UHF reception and is constructed from aluminum and plastic for weather resistance.

Product Overview

High-Performance Outdoor Digital Reception

This outdoor digital TV antenna is engineered to deliver clear, over-the-air broadcast signals for reliable home entertainment. Featuring a robust combination of Yagi-Uda and loop elements, it excels at capturing both VHF and UHF frequencies. Built with weather-resistant aluminum and plastic, this unit ensures long-lasting performance in various outdoor environments.

Technical Specifications

Materials

- Aluminum
- Durable plastic

Supported Frequencies	VHF, UHF
-----------------------	----------

Installation and Compatibility

Interface	Coaxial cable
Mounting	Pole mount

Features

Environmental Resistance

Weather Resistant • Outdoor Rated
