

Outdoor Eave/Balcony TV Antenna

This outdoor antenna is designed for eave or balcony mounting, providing enhanced signal reception. It features weather-resistant construction and includes brackets for easy installation at various angles.

Overview

Versatile Outdoor Signal Reception

This outdoor eave or balcony TV antenna is designed for stealthy, high-performance signal reception. Featuring a paintable surface to blend seamlessly with your building's exterior, it is fully weather-resistant, UV-protected, and rust-proof. The kit includes versatile mounting brackets for walls, windows, or attics, ensuring optimal placement for clear Full HD and digital VHF/UHF signal capture.
