

Outdoor Extension Cord Splitter

This heavy-duty extension cord splitter is designed for outdoor use. It features weather-resistant construction with individual outlet covers to protect against moisture and debris.

Product Overview

Heavy-Duty Outdoor Power Solution

This outdoor extension cord splitter is designed for demanding environments, providing a reliable way to power multiple tools or devices simultaneously. Featuring a robust, weather-resistant construction, it includes individual outlet covers to protect against moisture and debris. It is an ideal solution for job sites, gardens, and workshops where multiple power connections are required.
