

Outdoor Fiber Optic Relay Station

This outdoor optical fiber direct relay station is designed for network communication. It features a weatherproof enclosure for durability and reliable performance in various environmental conditions.

Product Overview

High-Performance Outdoor Relay Solution

This outdoor optical fiber direct relay station is engineered specifically for robust network communication infrastructure. Designed to withstand harsh environmental conditions, it features a durable, weatherproof enclosure that ensures consistent performance. It is an ideal solution for telecommunications providers looking to extend network reliability and coverage in outdoor deployments.

Technical Specifications

Environmental Protection

Weatherproof • Outdoor Rated

Primary Application

Telecommunications Infrastructure

Device Type

Optical Fiber Direct Relay Station

Mounting Configuration

Pole-mounted
