

Outdoor Garden and Avenue Lighting Fixture

Durable lighting fixtures are designed for gardens and avenues. Constructed with aluminum and polycarbonate or glass, they offer resistance against shocks and high temperatures.

Product Overview

Durable Outdoor Illumination

These professional-grade outdoor lighting fixtures are engineered for durability in garden and avenue settings. Constructed with a robust aluminum lantern and a protective screen made of either polycarbonate or glass, they offer excellent resistance against thermal stress and physical impact. With multiple finish options and compliant electrical standards, these fixtures provide a reliable lighting solution for diverse landscaping projects.
