

Outdoor High-Intensity Discharge Floodlight

High-intensity discharge floodlight designed for outdoor applications. It features a durable housing with a reflective interior for optimal light distribution and is suitable for general illumination in various settings.

Overview

High-Intensity Outdoor Illumination

This high-intensity discharge floodlight is engineered for robust outdoor applications, providing reliable and powerful illumination. Featuring a durable housing and a specialized reflective interior, it ensures optimal light distribution across large areas. It is an ideal solution for general lighting requirements in demanding environments.

Technical Specifications

Protection Class

IP65

Cable Length

1 m

Lighting Technology

High-Intensity Discharge (HID)

Suitable Environments

Outdoor, General Illumination
