

Outdoor Induction Lawn Light with Motion Sensor

High-intensity induction lamp designed for outdoor lawn and landscape illumination. It features a robust housing and integrated motion sensor for enhanced security and energy efficiency.

Product Overview

High-Intensity Outdoor Illumination

This induction lawn lamp is specifically engineered for professional outdoor and landscape illumination requirements. Featuring a robust, weather-resistant housing and an integrated motion sensor, it provides an ideal balance of security and energy efficiency. Designed to meet rigorous international standards, it is a reliable choice for telecommunication engineering applications and large-scale foreign engineering contracting projects.

Recommended Applications

- Outdoor landscape lighting
- Telecommunication engineering
- Foreign engineering contracting projects
- Security lighting
