

# Outdoor Infrared Patio Heater

This outdoor heater offers three heating power settings: 650W, 1350W, and 2000W. It is designed with a waterproof rating of IPX4 for safe outdoor use and includes an adjustable angle for directional heating.

## Product Overview

### Efficient Outdoor Heating Solution

This outdoor infrared patio heater is designed to provide reliable, directional warmth for patios, decks, and balconies. Utilizing efficient quartz heating elements, it directly warms people and objects rather than the surrounding air. Its durable, weather-resistant construction ensures performance even in challenging outdoor conditions.
