Product Overview

High-Efficiency Outdoor Illumination

This high-performance LED flood light is engineered for reliable outdoor illumination, featuring a durable housing designed for harsh environments. With integrated heat sink fins for superior thermal management and a linear driver, it ensures consistent, long-lasting operation. Available in power options from 10W to 100W, it serves as an ideal energy-efficient replacement for traditional lighting fixtures in security, landscape, and general area applications.

Technical Specifications

Ingress Protection Rating

IP66

Environmental Features

- No UV radiation
- No IR radiation
- Environment-friendly design

Power Range

10W, 20W, 30W, 50W, 100W

Installation & Maintenance

Installation Advantages

- Easy to install
- Low maintenance requirements
- Direct replacement for traditional bulbs
- No subsidiary fixture required
