

Outdoor LED Flood Light

This LED flood light is designed for outdoor illumination, providing high-intensity light with energy efficiency. It features a robust, weatherproof housing suitable for various environmental conditions.

Overview

High-Performance Outdoor Illumination

This ultra-bright SMD floodlight is engineered for durability and efficiency in demanding outdoor environments. Constructed with die-cast aluminum for superior heat dissipation and a toughened, anti-explosion glass lens, it ensures long-lasting performance and high light transmittance. With an IP65 waterproof rating and an adjustable 0°-180° mounting bracket, it provides versatile, reliable lighting solutions for security, landscape, and general area illumination.

Technical Specifications

Waterproof Rating

IP65

Available Power Ratings

10W, 20W, 30W, 50W, 100W, 150W, 200W, 300W

LED Chip Type

2835 SMD

Design & Build

Housing Material

Die-Cast Aluminum

Lens Material

Toughened Anti-Explosion Glass

Bracket Adjustment Range

180 degrees

Performance Features

Key Features

- Fast heat release design for extended lifespan
- High light transmittance lens
- Unique reflector for improved lumency
- Low light decay
- Adjustable mounting gear
