

# Outdoor LED Flood Light

This high-intensity LED flood light is designed for outdoor illumination. It features a durable, weather-resistant housing and an adjustable mounting bracket for versatile installation.

## ADDITIONAL IMAGES

## Product Overview

### High-Intensity Outdoor Illumination

This high-intensity LED flood light is engineered for superior outdoor performance, featuring a durable and weather-resistant housing with an elegant black finish. It is equipped with an array of high-efficiency LEDs that deliver bright, uniform light distribution across large areas. With an adjustable mounting bracket and integrated cooling fins for heat management, this fixture is an ideal solution for security lighting, building facades, and parking lot illumination.

## Physical Characteristics

Housing Finish	Black
Thermal Management	Integrated cooling fins
Mounting	Adjustable mounting bracket

## Applications

Ideal Applications	Security Lighting, Landscape Lighting, Parking Lots, Building Facades, General Area Illumination
--------------------	--

## Key Features

### Key Benefits

- Weather-resistant construction
- High-efficiency LED array
- Uniform light distribution
- Adjustable positioning for versatile installation
