

# Outdoor LED Flood Light

This LED flood light features a durable aluminum die-casting housing. The integrated driving and radiator design effectively diffuses heat, prolonging the fixture's lifespan.

## ADDITIONAL IMAGES

## Product Overview

### High-Efficiency Industrial Lighting

This LED flood light is engineered with a durable aluminum die-casting housing, featuring an integrated driving and radiator design for superior heat dissipation. With an impressive light efficiency of 120lm/w and a 50,000-hour lifespan, it offers exceptional cost performance for long-term industrial and outdoor use. The unit is versatile enough for diverse environments including warehouses, factories, and stadiums.

## Technical Specifications

### Light Efficiency

**120 lm/w**

Light Efficiency

### Lifespan

**50000 hours**

Expected Lifetime

### Beam Angle

110°

### Housing Material

Aluminum die-casting

## Applications

### Recommended Use Cases

Outdoor, Warehouse, Factory, Stadium
