

Outdoor LED Flood Light

This high-intensity LED flood light is designed for outdoor illumination. Its adjustable mounting bracket allows for flexible positioning, making it suitable for security, landscape, and general area lighting.

Product Overview

High-Performance Outdoor Illumination

This high-intensity LED flood light is engineered for robust outdoor performance, featuring a durable aluminum housing with a reliable weatherproof seal. It utilizes a high-efficiency LED chip to deliver bright, focused illumination while maintaining low energy consumption. Designed for versatility, the integrated adjustable mounting bracket allows for flexible positioning in security, landscape, and general area lighting applications.
