Product Overview

High-Performance Outdoor Illumination

This professional-grade outdoor LED flood light is engineered for durability and energy efficiency, making it an ideal solution for security, landscape, and large-area lighting. Featuring a robust, weather-resistant housing and an integrated heat sink, it ensures optimal thermal management for long-term reliability. With wide voltage compatibility and advanced surge protection, this fixture provides consistent, uniform illumination for demanding environments.

Technical Specifications

LED Type	Bridgelux 2835
Color Temperature	3000K, 4000K, 6000K
CRI	78

Electrical Ratings

Input Voltage Range	100-350V
Surge Protection	6 kV
Power Factor	≥ 0.95
Driver Configuration	Isolated

Environmental Ratings

IP Rating	IP66
