

# Outdoor LED Flood Light with Motion Sensor

This high-intensity LED flood light is designed for outdoor security and area lighting. It features a motion sensor for automatic activation and rugged weatherproof construction.

## Product Overview

### High-Performance Outdoor Illumination

This high-intensity LED floodlight is engineered for robust outdoor security and area lighting needs. It features an integrated motion sensor for automatic activation, ensuring convenience and energy efficiency. With a rugged, weatherproof construction, this light is built to withstand diverse environmental conditions, making it an ideal choice for residential, commercial, and industrial applications.

## Technical Features

### Key Specifications

**1 Integrated**

Motion Sensor

**1 Adjustable**

Mounting

### Suitable Applications

Residential, Commercial, Industrial, Security Lighting

## Design & Build

### Build Quality

- Rugged construction
- Weatherproof design
- Adjustable mounting bracket
