

# Outdoor LED Solar Street Light

This LED solar street light is designed for outdoor illumination. It uses an integrated solar panel for autonomous operation and energy savings.

## Product Overview

### High-Performance Solar Street Lighting

This outdoor LED solar street light offers a sustainable and autonomous lighting solution for streets, parking lots, and pathways. Constructed with a durable die-casting aluminum shell and rated IP67 waterproof, it is built to withstand harsh weather conditions including thunderstorms. The integrated high-efficiency polysilicon solar panel ensures rapid charging, while the advanced lithium battery provides up to 12 hours of continuous illumination.

## Technical Specifications

### Available Wattage Options

- 20
- 40
- 60
- 80
- 100
- 200

### Charging Time

**5 hours**

Peak Sunlight Charging

### Battery Performance

**12 hours**

Continuous Lighting

**3 days**

Rainy Day Backup

## Durability & Build

### Protection Ratings

IP67 Waterproof • Anti-thunder

### Construction Materials

Die-casting Aluminum, Polysilicon

## Features

### Smart Features

- Automatic brightness adjustment based on power levels
- Battery level visibility
- Charging status indicator
- Dual-head design for high brightness
