

Outdoor LED Solar Street Light

This LED solar street light is designed for outdoor lighting. It features an integrated solar panel for autonomous operation and energy savings.

Product Overview

High-Efficiency Outdoor Illumination

This outdoor LED solar street light is engineered for autonomous operation, utilizing an integrated solar panel to maximize energy savings. Built with durable materials and rated IP65 for weather resistance, it ensures reliable performance across diverse environmental conditions. The LED array delivers bright, uniform illumination, making it an ideal solution for streets, pathways, and security lighting applications.
