

Outdoor LED Street Luminaire

The ZD22 series is a robust lighting equipment line designed for outdoor applications. These luminaires feature a streamlined, aerodynamic housing constructed from durable, weather-resistant materials, ensuring longevity and reliable performance in various environmental conditions.

Product Overview

Robust Outdoor Lighting Solution

The ZD22 series represents a line of professional lighting equipment designed specifically for outdoor applications. Featuring a streamlined and aerodynamic housing, these luminaires are constructed from durable, weather-resistant materials to ensure long-term reliability. The design integrates an optimized lens for superior light distribution, making it an ideal choice for street lighting, parking lots, and public urban spaces.

Design and Construction

Lens Type

- Clear Lens
- Diffused Lens

Design Features

Aerodynamic Housing, Weather-resistant, Durable Construction

Application and Use

Primary Applications

Street Lighting • Parking Areas • Public Spaces

Maintenance Profile

Engineered for ease of installation and routine maintenance
