

Outdoor Misting Fan with Adjustable Speed

This misting fan provides a refreshing and cooling experience by combining the airflow of a traditional fan with a fine mist of water. Ideal for outdoor patios, workshops, or any space needing enhanced cooling, it features adjustable fan speeds and misting levels to customize the comfort.

Product Overview

High-Performance Outdoor Misting System

This industrial-grade misting fan utilizes an advanced centrifugal system, eliminating the need for nozzles or filters to ensure reliable operation. Designed for durability and performance, the unit features an epoxy resin-coated surface for rust resistance and a robust motor with thermal protection. It is an ideal cooling solution for large-scale environments, including manufacturing facilities, farms, patios, and athletic fields.

Technical Specifications

Safety & Durability

Waterproof design • Anti-rust coating • Pump burn-out protection • Overload capacity

Oscillation Angle

90 degrees

Speed Settings

3

Motor Construction

Cold-rolled silicon steel, Pure copper winding, Low temperature-rise design, Thermal protector

Applications

Ideal Environments

- Patios
- Factories
- Manufacturing facilities
- Farms
- Garages
- Athletic fields
- Greenhouses
