

Outdoor Post Lantern with Frosted Glass

This outdoor post lantern provides reliable illumination for residential and commercial applications. Its design incorporates a frosted glass diffuser that evenly distributes light, minimizing glare and creating a welcoming ambiance.

Product Overview

Professional Outdoor Illumination

The ZT13-85E outdoor post lantern is a robust lighting solution designed for both residential and commercial pathways, driveways, and outdoor spaces. Constructed from durable cast aluminum with a weather-resistant black finish, this fixture ensures long-lasting performance in diverse climates. The integrated frosted glass diffuser provides soft, even light distribution to minimize glare while creating a sophisticated, welcoming ambiance.
