

Outdoor Propane Patio Heater

This gas patio heater is designed to provide warmth and extend the outdoor season. It features a durable construction with a sleek finish, suitable for residential and commercial outdoor settings.

Overview

Professional Outdoor Heating Solution

This outdoor propane patio heater is engineered to provide reliable warmth for both residential and commercial outdoor environments. Featuring a durable powder-coated steel construction, it offers adjustable heat output ranging from 5,000 to 13,000 Watts to suit varying weather conditions. Its efficient design includes a wide reflector hood for optimal heat distribution and a secure base housing for the fuel source, making it an essential addition to any patio or open-air seating area.

Performance & Technical

Heat Output

13000 W

Max Power

5000 W

Min Power

Fuel Consumption	450g - 945g/hour
Compatible Fuels	Propane, Butane, Mixture

Dimensions & Build

Physical Dimensions

Component	Dimensions (mm)
Total Height	2210 (H)
Reflector	810 (Dia)
Base	460 (Dia) x 86 (H)
Tank Housing	378 (Dia) x 780 (H)
Main Pole	56 (Dia) x 850 (H)

Material & Finish	Steel with powder coating
