

Outdoor Radiant Patio Heater

This freestanding patio heater is designed for outdoor use. It provides radiant heat for comfortable outdoor gatherings during cooler weather.

Product Overview

Efficient Outdoor Heating Solution

This freestanding radiant patio heater is designed to extend the usability of your outdoor spaces during cooler weather. Featuring a circular reflector at the top, it efficiently directs heat downwards to create a comfortable environment for outdoor gatherings. Built with stability in mind, the unit includes a sturdy base and a durable cylindrical body to house gas components safely.
