

Outdoor Rotating TV Antenna

This outdoor rotating TV antenna receives both digital and analog signals. It features a motorized rotor for 360-degree rotation and optimal signal reception.

Product Overview

High-Performance Outdoor Antenna

This outdoor rotating TV antenna is engineered for reliable reception of both digital and analog signals. Featuring a motorized rotor for 360-degree rotation, it allows users to optimize signal strength from any direction. Built with weather-resistant materials, it ensures long-lasting performance in various outdoor environments, while the included remote control and control box simplify operation.

Technical Specifications

Signal Support	VHF, UHF, Digital, Analog
Rotation	360 degrees

Features & Accessories

Included Components

- Motorized rotor unit
- Remote control
- Control box

Durability

Weather Resistant
