

Outdoor Solar LED Flood Light

This outdoor light features a 5V 30W solar panel and a 3.2V 25AH battery. Equipped with high-efficiency LED chips, it provides bright and uniform illumination.

Product Overview

Professional Outdoor Solar Illumination

This high-performance outdoor solar LED flood light is engineered for durability and reliability in diverse environmental conditions. Featuring an advanced 3030 dual-chip LED array, it provides high-efficiency illumination up to 190LM/W for security, landscape, or general area lighting. The integrated system includes a robust 25AH battery and a high-capacity 30W solar panel for long-lasting performance.

Technical Specifications

Battery Capacity

25 AH

Battery Capacity

Solar Panel Power	30 W
Solar Panel Voltage	5 V
Controller Specifications	3.2V 10A

Lighting Performance

LED Efficiency

190 LM/W

Brightness

LED Chip Type	3030 dual-chip
---------------	----------------

Durability and Standards

IP Rating

IP67

Battery Cell Configuration	32650, 5PCS
