Product Overview

High-Performance Outdoor Reception

This outdoor TV antenna is engineered for reliable reception of digital terrestrial television signals across both VHF and UHF bands. Designed with durable, weather-resistant materials, it ensures long-lasting performance in diverse outdoor environments. Its multi-element array maximizes signal gain, making it an excellent choice for both urban and rural areas, even where signal strength is weak.

Technical Specifications

Target Markets

Europe • Poland

Supported Bands

VHF, UHF

Polarization

Horizontal, Vertical

Installation & Build

Build Quality

- Weather-resistant design
- Corrosion-resistant materials
- Multi-element array structure

Included Hardware

Yes
