

# Outdoor VHF/UHF TV Antenna with Booster

This outdoor TV antenna receives VHF/UHF full channels and includes a booster. It features full-direction 360° rotation, infrared remote control, and electrical controlled rotation.

## Product Overview

### High-Performance Outdoor TV Reception

This outdoor VHF/UHF TV antenna is engineered for optimal signal reception, featuring a built-in booster to ensure clear picture and sound quality. Designed with a robust, rainproof structure, it offers reliable performance in various weather conditions. Users can easily adjust signal direction using the included infrared remote control, which operates the 360-degree motorized rotation system.
