

Oval Fog Light Set with Mounting Brackets

This product is a set of oval fog lights, each equipped with a durable metal mounting bracket. One light provides a yellow beam, and the other emits a white beam for improved visibility.

Product Overview

Enhanced Visibility Solution

This Oval Fog Light Set is engineered to provide superior visibility in adverse weather conditions. The set includes two distinct units—one emitting a yellow beam and the other a white beam—to cater to different environmental needs. Featuring robust metal mounting brackets and a durable black housing, these lights are built for secure attachment and long-lasting performance in automotive and auxiliary lighting applications.
