

Oval Vehicle Mirror with Integrated Light

This oval mirror is designed for vehicle interiors and features integrated lighting. It includes electrical wiring and mounting hardware for secure attachment.

Product Overview

Integrated Illumination and Visibility

This oval vehicle mirror combines essential reflective visibility with an integrated lighting system, designed specifically for automotive applications. The unit features a durable black housing and includes necessary mounting hardware for a secure, professional installation. It serves as a dual-purpose component, enhancing both driver safety and vehicle functionality.
