Overview

Professional Over-Ear Audio Solution

These over-ear stereo headphones are engineered to provide a balance of high-quality audio reproduction and long-term comfort. Featuring a closed-back design for effective noise isolation and a lightweight, foldable construction, they are an ideal choice for versatile applications including music listening, gaming, and professional communication. With universal 3.5mm connectivity, they integrate seamlessly with a wide range of audio devices.

Audio Performance

Driver Diameter	40 mm
