

Over-Ear Wired Headset with 40mm Driver

This over-ear headset provides a comfortable listening experience with soft earcups and a flexible headband. Its compact design ensures easy portability and storage.

Product Overview

Professional Wired Audio Solution

The LKT-B43 wired headset is designed to deliver a reliable and comfortable audio experience for professional and personal use. Featuring a classic back-bang design with 30mm drivers, it provides clear sound reproduction across a broad frequency range. The lightweight construction and flexible headband ensure comfort during extended listening sessions, making it a practical choice for daily audio tasks.
