Overview

Efficient Hot Water Solution

This oxygen-free gas water heater is engineered for reliable, on-demand hot water supply in household environments. Featuring a constant forced exhaust design, it ensures optimal safety and performance while maintaining a compact footprint. With intuitive temperature controls and energy-efficient operation, this unit is designed to integrate seamlessly into modern residential settings.

Performance Metrics

Hot Water Capacity

12 L/min

Capacity (t=25)

16 L/min
