Overview

Reliable Power Generation

The P350 Diesel Generator Set is a robust and dependable power solution engineered for consistent performance in industrial, commercial, and emergency backup applications. Featuring a high-efficiency engine and alternator pairing, this unit is designed for durability and stable power output. Enclosed in a sound-attenuated canopy, it offers quiet operation suitable for noise-sensitive environments while maintaining safety through comprehensive monitoring and automatic protection systems.

Technical Specifications

Engine Type	Diesel
Alternator	Stamford
Rated Voltage	400 V

Features

Safety & Protection

- Automatic shutdown (low oil pressure)
- Automatic shutdown (high temperature)
- Overload protection
- Automatic voltage regulation

Control Panel	DSE7320
Included Equipment	Battery, Fuel Tank, Soundproof Enclosure, Circuit Breaker, Base Frame
