

Packaging Machine

This machine automates the packaging process for various products. It ensures efficient and consistent packaging, reducing labor costs and improving throughput.

Overview

Compact Fluorescent Lighting Solution

This compact fluorescent lamp (CFL) is engineered as an energy-efficient alternative to traditional incandescent lighting. Featuring a design with three U-shaped fluorescent tubes, it integrates essential electronics within the base to ensure reliable operation. Its durable white plastic construction is optimized for effective heat dissipation, making it suitable for a wide range of residential and commercial lighting applications.

Technical Specifications

Key Features

- Energy-efficient design
- Extended operational lifespan
- Integrated electronic base
- Optimized heat dissipation

Design Type	Compact Fluorescent Lamp (CFL)
Construction Materials	White Plastic, Fluorescent Glass
