

Packaging Machinery

Packaging machinery automates the process of enclosing products for distribution. These machines enhance efficiency and consistency in packaging operations.

Product Overview

Professional Packaging Solution

This advanced packaging machinery is designed to optimize production efficiency and ensure consistent output quality for industrial operations. Engineered for reliability and precision, it streamlines the packaging process to meet high-volume demands. Its robust construction supports seamless integration into existing production lines, providing a dependable solution for various packaging requirements.

Suitable Industries

Food & Beverage, Pharmaceuticals, Consumer Goods, Logistics

Technical Specifications

Performance Metrics

98 %

Efficiency Rate

50 ppm

Cycles per Minute

Automation Level

Fully Automated • PLC Controlled

Power Requirements

220V / 380V, 50/60Hz

Compliance & Standards

Certifications

CE, ISO 9001, RoHS
