

Packaging Machinery Mounting Bracket

This heavy-duty metal component is designed for packaging machinery. It features a wall-mount design with adjustable elements and clamping mechanisms for secure positioning of packaging materials or equipment.

Product Overview

Industrial Mounting Solution

This heavy-duty mounting bracket is engineered for precision positioning in packaging machinery environments. Featuring a robust wall-mount design with a vertical support post and an adjustable horizontal arm, it provides stable support for critical components. The durable black finish ensures long-term reliability in demanding industrial settings.

Physical Characteristics

Material Finish

Black Finish • Heavy-duty Metal

Mounting Configuration

Wall-mount

Design & Functionality

Key Features

- Adjustable horizontal arm
- Vertical support post
- Integrated clamping mechanisms
- Rectangular positioning platform

Primary Application

Packaging Machinery, Equipment Positioning, Industrial Mounting
