

Paddy Rice Processing Equipment with Glue Combination

This paddy rice processing equipment offers a comprehensive solution for rice milling and processing. The machinery integrates cleaning, husking, separating, whitening, and grading functions to ensure high-quality rice production.

Overview

Comprehensive Rice Processing Solution

This paddy rice processing equipment offers an integrated solution for modern rice milling operations. Designed for efficiency and reliability, the machinery combines cleaning, husking, separating, whitening, and grading functions into a single, compact system. It is an ideal choice for small to medium-scale facilities looking to optimize their production output and maintain high milling quality.

Performance Metrics

Production Capacity

1800 kg/h

Min Capacity

2300 kg/h

Max Capacity

Technical Specifications

Total Power	44.6 kw
Machine Weight	3000 kg
Overall Dimensions (L x W x H)	4000 x 2700 x 3340 mm

Features

Operational Benefits

- Compact design for space efficiency
- Adjustable parameters for different paddy types
- Robust construction for durability
- Easy maintenance

Integrated Functions	Cleaning, Husking, Separating, Whitening, Grading
