

# Paint Roller Handle with Ergonomic Grip

This paint roller handle is designed for use with paint rollers. Its ergonomic plastic handle provides a comfortable and secure grip, while the durable metal frame ensures secure roller placement and even paint distribution.

## Product Overview

### Professional Ergonomic Paint Roller Handle

This manual paint roller handle is designed to provide optimal control and comfort for professional painting applications. Featuring an ergonomic red plastic grip, it reduces hand fatigue during extended use. The 6mm wire frame is constructed from durable metal to ensure stability and consistent paint application across various surfaces.

## Technical Specifications

Frame Material	Durable Metal
Wire Diameter	6 mm
Compatible Roller Width	50mm - 150mm

## Design Features

Handle Material	Ergonomic Plastic
Product Highlights	Ergonomic Grip, Easy Replacement, Even Distribution, Heavy Duty
