

# Paint Roller with Metal Frame

This paint roller features a durable metal frame and a comfortable, typically orange, plastic handle. It is designed for smooth and even paint application on walls and other surfaces, ensuring a professional finish.

## Product Overview

### Professional Grade Paint Roller

This paint roller is designed for professionals requiring a smooth and even application on various surfaces, including interior walls. It features a durable metal frame that ensures stability during use, paired with an ergonomic orange handle for comfortable control. The roller cover is crafted with a high-quality white, fuzzy material with distinctive yellow stripes to provide excellent paint pick-up and release for a professional finish.
