

Pan Head Machine Screw with Wall Plug and Spring Washer

This fastener assembly features a bolt, plastic wall plug (anchor), a spring, and a washer. The plastic wall plug expands when the bolt is tightened, providing a secure anchor.

Product Overview

Comprehensive Fastening Solution

This assembly provides a complete, ready-to-use fastening solution designed for secure anchoring in various wall materials. It features a high-quality pan head machine screw paired with a durable plastic wall plug that expands upon tightening to ensure maximum grip. The inclusion of a spring and washer assembly offers enhanced tension control and load distribution, making it an ideal choice for reliable, long-term installations.
