

Panel Cart Truck 2600lb Capacity

This panel cart truck has a 2600lb load capacity. It is equipped with a steel frame and heavy-duty wheels for durability and smooth maneuverability.

Overview

Heavy-Duty Material Handling Solution

This heavy-duty steel panel cart is engineered to handle substantial loads with ease, making it an essential tool for moving mattresses, tables, panels, and other awkward, bulky items. Designed for durability and stability, the robust steel frame ensures reliable performance in demanding industrial or commercial environments. With 8-inch swivel casters and ergonomic side handles, this truck offers smooth maneuverability and effortless control for operators.
