

Panel Mount Indicator Light

Panel mount indicator lights provide visual indication in industrial control panels and instrumentation. They offer clear and reliable status indication with easy installation and durable construction.

Product Overview

Industrial Status Indication

These panel mount indicator lights are engineered for reliable visual signaling in industrial control panels and instrumentation. Designed for durability in demanding environments, they offer clear status indication for various operational states. The robust construction ensures long-lasting performance, while the user-friendly panel mount design facilitates quick and secure installation.

Technical Specifications

Installation Features

- Easy installation
- Secure connections

Primary Application	Emergency Light & Indicator Light
Lens Colors	Yellow, Red, Green
Mounting Type	Panel Mount
