

# Panel Mount Industrial Receptacle

This panel-mounted electrical receptacle features a bright yellow housing and a protective hinged cover. The protective cover helps prevent ingress of dust and moisture, ensuring reliable performance and extended lifespan.

## Product Overview

### Industrial Power Connectivity

This panel-mounted industrial receptacle is engineered for high-reliability power distribution in demanding environments. Featuring a ruggedized yellow housing and an integrated protective hinged cover, it is built to resist dust and moisture ingress. It provides a secure three-prong connection interface, ensuring consistent electrical contact for industrial machinery and critical infrastructure applications.

## Technical Specifications

Mounting Type	Panel Mount
Connection Type	3-Prong Industrial
Attachment	4-Hole Flange

## Design Features

Safety and Protection	Hinged Cover, Dust-Resistant, Moisture-Resistant, High-Visibility Housing
