Product Overview

Compact Industrial Signaling

This panel mount LED indicator light is designed for reliable visual signaling in industrial and commercial environments. Featuring high-luminance LED technology, it provides clear status indication for machinery, control panels, and process monitoring systems. The design includes an ultra-short option for space-constrained installations and supports both AC and DC power supplies for versatile application.

Technical Specifications

Available Colors

Red • White • Orange • Green

Power Compatibility

- AC
- DC

Mounting Diameters

16mm, 22mm, 25mm

Current Consumption

20 mA

Certifications

Compliance Standards

CQC, UL, TUV, CE, RoHS
